

Advance-Nilfisk Parts

Advance-Nilfisk Parts - Imagine how tiresome it would really be to tidy up your very own house after having a large party, without help from cleaning equipment. Before, the time carpets and upholstery had the dirt beat out of them manually; brushes, brooms and cleaning cloths were the state-of-the-art cleaning supplies back then.

The founder of Nilfisk-Advance, P.A. Fisker, started as an electrical engineer who liked to work on electrical motors. After establishing his company during the year 1906, he started to produce motors to drive coffee grinders, fans, machine tools and drills. Mr. Fisker's dream from the start was to have an international company selling goods internationally.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning trade. Mr. Fisker invented a incredible, ground breaking vacuum cleaner which could be operated by one person for the reason that it only weighed 17.5 kilos! This creation came in a time where other cleaning machines were massive and needed 4 or more operators, hence, the Nilfisk C1 changed everything and developed the manner we clean forever. The brain behind these first cleaning machines remains unparalleled. Cleaning equipment provide an excellent solution to an existing problem; things get filthy and should be cleaned frequently, without too much effort.

Slowly but steadily, Nilfisk-Advance expanded throughout the decades. During the 1980s, this growth truly took place the time the business became a part of the NKT Group. Their new owners' ambition and concentration made Nilfisk-Advance take a huge leap forward within the industry, aiming to be among the largest universal players in the market of professional cleaning equipment. Nilfisk-Advance is currently located in all parts of the world due to steadily obtaining a lot of small businesses in order to develop their product portfolio and presence in new markets. They are proud to provide different cleaning solutions to meet each requirement.
